

✓ Please *Do*:

-  Try to arrive before class begins to allow your child to transition to the classroom.
-  Participate in class by singing and dancing with your child and the other families.
-  Feel free to act as silly as you like.
-  Take back home what you learn in class.
-  Listen to the CDs at home and in the car.
-  Invite adult family members to come to class with you. And try to notify Jackie beforehand if you need to bring an unregistered sibling to class.

⊘ Please *Don't*:

-  Chat with your neighbors in class. Use class time to play musically with your child.
-  Talk on your cell phone, check your e-mail, or send text messages in class.
-  Feed your child in the classroom. Bottles and secure sippy cups may be used if absolutely necessary, but no juice boxes.
-  Bring a child with fever, a rash, a hacking cough, a streaming nose, oozing eyes, or lice or nits to class. If you are in doubt, please consult your child's doctor.
-  Bring unregistered children other than siblings to class. We do not allow drop-ins to our regularly scheduled classes. Free demonstration classes are offered before each semester begins for families who would like to try out a class.

😊 Thank you! Have a wonderful semester!
